MAKING THEM AMERICANS

How few of us realize the importance of making over the foreigner — of implanting American ideals, ideas and common sense in place of socialistic and maybe anarchistic theories. It means a lot to every American citizen. This work and many other interesting activities of the Department of Labor are discussed in the twelfth issue of the series of beautifully illustrated booklets on Our Government which we have been distributing to representative citizens of this community.

If by any chance you have failed to receive regularly your copies of this series that has been so favorably commented upon, visit us today and from the limited supply on hand we will gladly complete your set.

APPOMATTOX PAYS $608 40 FOR BOUNTIES

The Board of Supervisors through its clerk, during the year 1922, paid out the sum of $608.40 for bounties on the following predatory birds and animals, according to a statement just gotten up by Clerk C. W. Smith:

Cooper Hawks	266	$133 00
Shark Skinned Hawks	258	129 00
Bird or Sparrow Hawks	237	59.00
Fox	87	43.50
Weasel	55	55 00
Mink	78	78.00
Great Horned Owl	90	45.00
Gos Hawk	4	4.09
Crow	411	61 65

Mr. Ashby C. Martin, of Buckham, Va., claimed bounties on the largest number of Hawks, he having presented and claimed on 55; and Mr. Raymond Martin came second with 18 Mr Harry Goin, of Appomattox claimed on the largest number of minks, with 9, and Emmett C. Layne came second with 7.

Bounties were only paid on the above mentioned predatory birds and animals, and are no longer paid on minks. The 1922 Legislature so amending the law that minks were eliminated from the list

One-half of the bounties paid on the above birds and animals is refunded from the game department of the State' except on the bird or sparrow hawk and on the fox, on which the State does not pay any part of the bounties, the whole being paid by the County.

TOBACCO SEED TREATMENT

It has come to my notice that many of the farmers of the county are sewing and planning to sow tobacco seed which has not been treated against "Wild Fire" and other diseases. I feel sure that this is a big mistake on the part of the farmer, especially since it cost so little to give the treatment and since any farmer can do it in about thirty minutes, or he can send [illegible] to Dr F. D Tromm[illegible], Va., and will treat them I would like to see every farmer in the county treat his own seed, and if the following method is used good results should be obtained: Soak the seed for fifteen minutes (no longer and no less) in a one to one-thousand solution of corresive sublimate (Bichloride of Mercury) then wash thoroughly, dry and store in a clean bag or package in a place where they cannot become contaminated. The treatment may be given any time prior to seeding. Bichloride of Mercury tablets can be bought at the drug store, directions for making a one to one-thousand solution is printed on the package Tablets of different sizes are sold, one of the large tablets or four of the small tablets make the proper strength solution when dissolved in one pint of water, and one pint of the solution is sufficient for treating the average size lot of seed. The solution should be prepared in a glass or wooden vessel, quart mason jar is convenient to treat the seed in. The seed should be poured into the solution and stirred off and on for the fifteen minutes, after which they should be poured through a piece of cheese cloth and then washed by pouring a bucket of water over the seed through the cloth. After washing the seed may be dried by placing them in a warm room for a few hours. If these directions are followed carefully there will be no danger of injuring the seed with this treatment. Extreme care should be taken that the treated seed do not come in contact with the untreated seed, bag or anything that has been subjected to the untreated seed. If you do not understand these instructions see County Agent, Byrne.

RED CROSS RESCUED 600,000 FROM DEATH

Spent $1,200.000 for Relief of Famine Sufferers in China Last Year.

To help overcome conditions of acute distress in five famine stricken provinces of Northern China, where millions of persons were affected by an unprecedented shortage of food, the American Red Cross during the last fiscal year spent more than $1,200,000, $1,000,000 of which was contributed directy by National Headquarters and the remainder by various groups interested in the welfare of China.

Through the wide relief operations thus made possible it is estimated that more than 600,000 famine sufferers were saved from starvation.

To the end that similar prompt relief measures by the organization may always be possible the Red Cross is asking continued support by the American people by universal renewal of membership at the Annual Red Cross Roll Call, November 11 to 24.

The method of relief employed by the American Red Cross in its operations in China was particularly effective, for in addition to saving hundreds of thousands of lives it provided China with more than 900 miles of permanent roads that are sorely needed to prevent a recurrence of famine. At one time the Red Cross employed 74,000 Chinese workmen, paying them in food for themselves and dependents, this food being brought in from Manchuria and elsewhere.

"Built Me Up"

"I USED Cardui for years and it did me more good than any medicine I ever used," writes Mrs. M. C. Ragsdale, of Fort Towson, Okla. "I used to suffer with womanly trouble that weakened me until I was a mere shadow, nervous, and could not sleep. I did not feel like I could live.

"It seemed that nothing helped me till I heard of Cardui and began to use it. It strengthened me and, as 'twas recommended to do, it regulated and built me up till I was like another woman."

If you are weak, run-down and feel that you need a tonic, take Cardui, the woman's tonic, the tonic about which you have always heard, the tonic that helps weak women regain their strength.

Cardui acts on the womanly system and helps relieve pain and discomfort due to female ailments.

Try Cardui, today, for *your* trouble.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
